11. The Commission has also received information from the Government of the Republic of the Philippines that the Government has been providing military assistance to the Armed Forces of the Philippines (AFP) in the form of arms, ammunition, and other military equipment. This assistance is being provided to the AFP in order to enable it to carry out its operations against the Communist Party of the Philippines (CPP) and its armed wing, the New People's Army (NPA).

1. The first step in the process of the investigation is the identification of the problem. This is done by the investigator who is assigned to the case. The investigator must first determine the nature of the problem and the scope of the investigation. This is done by interviewing the witnesses and the parties involved in the case. The investigator must also determine the time and place of the incident and the persons involved. This information is then used to develop a plan of investigation.
